Subject: Eureka dilution modeling review follow-up

Heaven – I've taken the relative calm of the Thanksgiving week to write up my comments on the documents you and your team shared with me after our call on November 2nd, and would like to get those to you while they're still useful. Would you like to schedule a call, or should I simply send you my write-up?

On an unrelated note, please be aware that the state website for NPDES contacts

https://www.waterboards.ca.gov/water_issues/programs/npdes/

apparently has an incorrect phone number listed for you. I tried calling that (office) number earlier today while attempting to contact you, and it connected me instead to Steven Bernstein's "I have retired from state service" recording.

-Pascal
